

INVACARE® TOP END®
FORCE™ G
HANDCYCLE

The **Invacare® Top End® Force™ G Handcycle** design offers an adjustable, trunk-powered, erect position for low paras, amputees and competitors who can “gut” it out using abdominal, arm, shoulder and chest muscles. The Invacare Top End Force G Handcycle features an internal rib center frame design to make it super stiff. The adjustable back angle (55°-90°), back height, leg rests, crank height and fore/aft seat position allows you to dial in your ultimate power position. Are you ready to force the pace?
